## Professional Summary

Fullstack Developer with a strong foundation in **HTML5, CSS3, SASS, JavaScript, and Next.js**. Skilled in building clean, responsive, and adaptive interfaces with a focus on user experience. Experienced with **Tailwind CSS** for efficient styling and modern UI design, as well as **Node.js and Express** for backend integration. Proficient in **Git version control**, managing local storage logic, and implementing secure authentication flows. A fast learner and proactive collaborator with **strong adaptation skills**, eager to grow in a dynamic development environment.

## Technical Skills

**Front-End:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

**Back-End & APIs:** Node.js, Express, MongoDB, RESTful APIs

**Tools & Platforms:** Git, GitHub, Visual Studio Code, Figma, Vercel, Vite, Windows

**Other Skills:** Responsive Web Design, Accessibility (WCAG 2.2), SEO Optimization

## Project Experience

### Online Shop — E-commerce Platform

**Demo:** [online-shop-chi-flame.vercel.app](https://online-shop-chi-flame.vercel.app) | **Code:** [github.com/netkatya/online-shop](https://github.com/netkatya/online-shop)

- Developed a modern e-commerce website featuring dynamic product browsing and user authentication.
- Implemented the Goods page and integrated login/registration functionality with backend APIs.
- Ensured seamless integration between the frontend and backend for a smooth user experience.

**Role:** Frontend and Backend Developer (Group Project)

### NoteHub — Authentication System

**Demo:** [09-auth-seven-neon.vercel.app](https://09-auth-seven-neon.vercel.app) | **Code:** [github.com/AndriiButenko05/09-auth](https://github.com/AndriiButenko05/09-auth)

- Built an individual project focused on a secure authentication system using Next.js and TypeScript.
- Implemented protected routes, user session management, and custom middleware.

- Developed backend-integrated login logic and high-quality UI components for auth pages.

**Role:** Author, Developer

### A.R.I. - Learn JavaScript — Interactive Game

**Demo:** [js-game-seven-indol.vercel.app](https://js-game-seven-indol.vercel.app) | **Code:** [github.com/netkatya/js-game](https://github.com/netkatya/js-game)

- Co-developed an interactive educational game designed to test and improve JavaScript skills.
- Built a modern interface with smooth animations and levels where users execute real code in the browser.
- Responsible for creating the game levels, results page, and local storage logic.

**Role:** Developer (Group Project)

### Clothica Shop — Modern Storefront

**Demo:** [clothica-shop.vercel.app](https://clothica-shop.vercel.app) | **Code:** [github.com/netkatya/clothica-shop](https://github.com/netkatya/clothica-shop)

- Created a clean and visually appealing clothing storefront using Next.js, TypeScript, and CSS Modules.
- Built the entire Goods page and the "Popular Goods" section to enhance product discoverability.
- Focused on delivering a simple and smooth browsing experience through responsive UI components.

**Role:** Developer (Group Project)
